

SIMPLY AMAZING!

Turolight proudly introduces the **Ilano™** flat panel fluorescent bulb exclusively to Canada. This innovative technology **lasts longer, dims better, saves money** and offers a more consistent, reliable alternative to halogen and LED's. Ilano™ costs far less than LED's but can last just as long, if not longer! It's completely dimmable and ideal for rough usage areas.

“ **Filaments are the leading cause of lamp failure. The Ilano™ has no filaments! We rate it at 30,000 hours, but it can last far longer!** ”

Our proprietary design allows for millions of on/off cycles with no negative effect on life, yielding the longevity of a solid state LED lamp with superior flood lighting and warm coloring at a fraction of the cost. All of these features and benefits are achieved while **reducing power consumption, maintenance and expense** to render one of the world's most efficient products!

1/3 Cost of LED

47 Patents Granted!

FPF-PAR38

Key Features

- Smooth Dimming
- 30,000+ Hours Life Span
- 1/3 Cost of LED
- Two Year Warranty
- IP64 Water Rated
- Withstands Direct Washing
- 25% More Efficient than Spiral Covered PAR38
- Super Lamp Status*

* Meets California Lighting Technology Center Standards <http://cltc.ucdavis.edu>

Applications

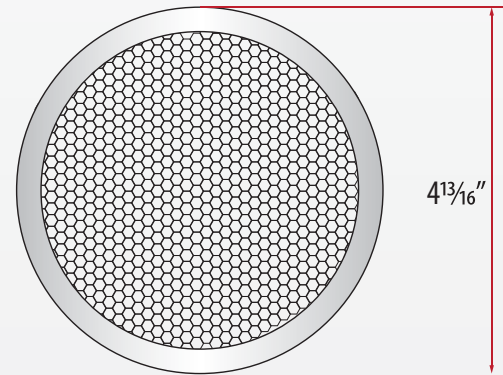

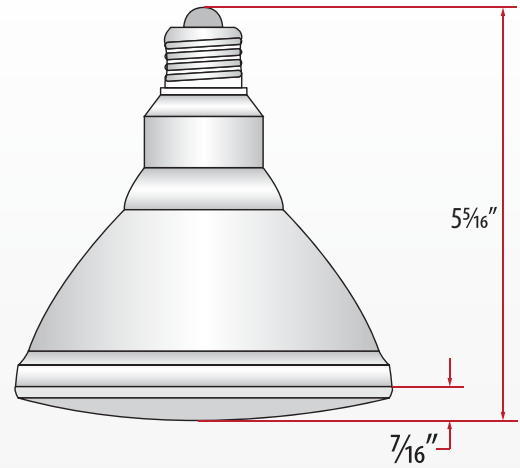

- Recessed Cans & Track Lighting
- Restaurants
- Theaters, Cinemas & Foyers
- Concourses & Walkways
- Residential Applications
- Property Management
- Agricultural & Poultry Farming
