

TUROLUX VIVID

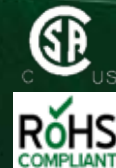

A FULL LINE OF HALOGEN REPLACEMENT LED BULBS

WITH
CRYODRIVE
TECHNOLOGY

With our new **CRYODRIVE COOLING TECHNOLOGY** the **TUROLUX VIVID** LED lamps run colder which improves brightness and longevity. These bulbs last an average of 40,000 hours and use up to 85% less energy than the equivalent halogen. The **TUROLUX VIVID** LED lamps are ideal for retail stores, hotels, restaurants, museums and art galleries. Turolux VIVID LED lamps are available in cool and warm white with amazing colour quality making them an ideal alternative for traditional halogen bulbs.
