Duro-Lite Incandescent Lamps

Duro-Lite incandescent lamps have an average rated life of 6,000 hours, up to three times longer than a standard incandescent lamp. Duro-Lite XL-3000 A19 lamps are available in a 3-way configuration (for light adjustable fixtures). Duro-Lite also has a decorative collection, which includes chandelier candle lamps, chimney lamps, and globe lamps. Each Duro-Lite incandescent lamp comes with a 2-year warranty and most are available in a clear or white finish.

- 6,000-hour average life
- Lasts three times longer than standard incandescents
- 2-year warranty (Based on residential use)
- Available in assorted wattages

Duro-Lite Fluorescent Candle Lamps

Duro-Lite Fluorescent candle lamps have an attractive design for decorative use. The C-shaped candle lamps and H-shaped Chimney-Lite lamps have a fiberglass winding to help simulate the look of real flame. Fluorescent lamps can be used indoors or outdoors in everything from coach lights to candlesticks. With a 6,000-hour life and a 2-year warranty, these are a smart choice for attractive and durable lighting.

- 6,000-hour average life
- Fiberglass winding simulates the look of flames
- 2-year warranty (Based on residential use)
- Available in a variety of wattages

Omni-Lite™ Adjustable Undercabinet Halogen System

The Omni-Lite has a unique bridge wiring system that allows the lights to be connected. This creates a continuous light system while using only one electrical outlet. Additional fixtures can be added at any time. Each Omni-Lite fixture has a swivel head design, which allows it to focus light where it is needed. Each fixture can operate independently and has a hi/lo dimmer switch.

- Available in one, two, and three light fixtures
- Fixtures can be connected and use one power outlet
- 1-year warranty (Based on residential use)

The OMNI-LITE's unique bridge control allows you to connect the lights to each other, creating a continuous lighting system. Add additional light anytime you want and use only one electrical outlet for the entire system.

In addition, each OMNI-LITE fixture has a unique swivel head design that allows you to focus the light where you need it.

Each fixture operates independently, and each has a built-in Hi / Lo dimmer switch.
