GEOESIS FUSION

After the amazing success of our **GENESIS** product line which was way ahead of it's time 4 years ago and has yet to be matched by much of our competition. **TUROLIGHT** has made another industry leading advancement by introducing **GENESIS FUSION**. This product line is **SMALLER**; giving customers more freedom to replace inefficient incandescent bulbs, **BRIGHTER**; average 70+ lumens per watt with beautiful colour rendering, and **GREENER**; they are not only energy efficient; they are the safest CFL for the environment. Containing only 1mg of mercury. These lamps are Energy Star compliant for an average life of 10,000 to 12,000 hours, and with the use of lead-free solder and glass they are RoHS compliant as well.
