

COOLRAY™

Halogen Lamps

PAR 30

PAR 38

PAR 20

Features and Benefits

- 5,000-hour life
- Reduces heat on merchandise by 85%
- Whiter light accentuates colors and textures
- Optimum focus and light output
- Attractive appearance

Applications

- Heat sensitive displays
- Food service
- Grocery and produce stores
- Carpet and drapery studios
- Retail stores

Coolray Gives Bold Lighting with Cool Temperature

A unique coating on the reflector of the Coolray™ halogen lamp allows heat to escape from the back of the lamp, while delivering light from the front; this reduces heat on merchandise by 85%. It is ideal for displaying any heat sensitive items, including food and produce. In addition, Coolray's crisp, white light accentuates natural colors and textures of display items.

Coolray's reflector has an attractive, iridescent appearance, and, with the specially designed lens, it improves light distribution. The long 5,000-hour life saves on maintenance and helps keep merchandise looking its best longer than any standard halogen lamp. Keep display items cool, while lowering costs, with Coolray.
