DRAWINGS NOT TO SCALE

SAVE THESE INSTRUCTIONS

Recycle the battery according to local municipal requirements.

LED String Lights

SSL-STRINGER/RGBW

INSTALLATION INSTRUCTIONS

WARNING: Basic safety precautions should always be followed to reduce the risk of fire, electric shock and personal injury.

When used outdoors in wet locations, ground fault circuit interrupter protection (GFCI) is to be provided on the circuits or outlets. Extension cords used must be a type rated for outdoor use, such as the following: SEW, SEOW, SEOOW, SOW, SOOW, STW, STOW, SJEW, SJEOW, SJEOWW, SJW, SJOW, SJOOW, SJTW, SJTOW or SJTOOW. The connector cover should always be in place to prevent the entry of water (unless a string light connector is inserted).

POWER SUPPLY

Caution: Risk of Electric Shock. Avoid making connections or disconnections when the equipment is wet. Do not use with extension cord near water or where water may accumulate. Do not submerge.

CAUTION – To reduce the risk of fire, electric shock or injury to persons:

- String Lights are intended for installation indoors or outdoors.
- String Lights must be supported by steel guide cables or other suitable supporting hardware such as S-hooks, screw hooks or zip ties (not included) whenever span distances exceed 24 feet (7.3m). See Installation Methods on page 4.
- Lights should be installed so that bulbs are facing down ONLY.
- Do NOT secure light string to buildings or other structural supports using nails, staples or other sharp, conducting materials. DO NOT DAMAGE THE WIRE.
- Avoid damage to the insulation during installation. Do NOT pierce or compromise wire's or socket's outer covering, jacket or sheathing.
- Periodically inspect wire and sockets for degradation due to weather, UV light or other damage. Promptly replace light string.

WARNING: – RISK OF ELECTRIC SHOCK!!

Disconnect power supply at source prior to wiring, replacing light bulbs or servicing in any way.

BULB REPLACEMENT

- Unscrew bulb lens counter-clockwise.
- Remove LED bulb by pulling on LED stem.
- Insert new LED bulb, aligning guide on bulb to groove inside socket.
- Gently push in LED bulb until it's flush with socket.
- Screw in bulb lens clockwise.

Includes two extra bulbs.
Bulbs last up to 25,000 hours.
For additional bulbs please

IF REMOTE CONTROL DOES NOT WORK PROPERLY, PLEASE RESET.

REMOTE CONTROL

(See illustration)

- 1** ON: Turns the lights ON.
- 2** OFF: Turns the lights OFF.
- 3** INCREASE/DECREASE BRIGHTNESS: Press (▲/▼) to choose brightness level (only works in single color mode).
- 4** COLOR CHANGING SPEED: Press (-/+) to decrease or increase the color changing speed (only works in color combination mode).
- 5** MODE BUTTON: Press button to select one of the 9 color combination modes. (See chart to the right.)
- 6** RED: Press to change string light color to RED.
- 7** GREEN: Press to change string light color to GREEN.
- 8** BLUE: Press to change string light color to BLUE.
- 9** WHITE: Press to change string light color to WHITE.

MODE BUTTON FUNCTIONS

- 1. Red to green
- 2. Red to blue
- 3. Red to white
- 4. Green to blue
- 5. Green to white
- 6. Blue to white
- 7. Red to green to blue
- 8. Red to white to blue
- 9. Red to green to blue to white

CONNECT UP TO 3 SETS. USE ONLY ONE POWER SUPPLY, ONE CONTROLLER AND ONE REMOTE FOR UP TO 3 SETS.

The controller function button controls all color changing functions except the brightness and the color changing speed. Press and hold button to turn off. In the event that the remote control is lost, the controller function button can be used instead of the remote control.

- 1** Power Supply/Controller
- 2** CONTROLLER FUNCTION BUTTON: Press button to select one of the 13 color combination modes. (See chart to the right.) Press and hold button to turn off.
- 3** String light connector.

When unit is turned on, it will start at the last mode.

CONTROLLER FUNCTION BUTTON

- 1. Red
